

# The Hunting Pipe<sup>®</sup> 2021

by Nørding

The inspiration for our Hunting Pipe 2021 comes from the Ruffed grouse.

The broad bowl on our 2021 Hunting Pipe reassembles the spectacular ruff of the Ruffed Grouse - and the wide stem, the beautiful fanned tail.

The distinctive mid-brown stain allows the contrast in the grain to stand out in order to enhance the feeling of a feathery pattern.

The 2021 Hunting Pipe comes in two finishes, a silky mat smooth version and a semi rusticated version. Both versions are fitted with our signature silver ring featuring our "N"-logo.

We hope you will enjoy it

Denmark

*The ruffed grouse (Bonasa umbellus) - known as "the king of gamebirds" - is a very popular game bird in North America.*

*It's roughly the size of a chicken (unlike our pipe that's in the lighter end of the 2.5 Oz / 70g -range).*

*The name "Ruffed" is derived from the long shiny neck feathers.*

*When the cock is defending his territory - or showing off - these feathers are extended into a spectacular ruff which, together with a fully fanned tail, makes him look twice his normal size.*
