

THE HUNTING PIPE 2022

by Nørding 

Warthogs are tough and sturdy pigs who live in open and semi-open habitats in sub-Saharan Africa. They are widely distributed, and presently not threatened - and is being reintroduced into the areas where they have become locally extinct.

The Warthog is one of the best loved creatures, immortalised in Hollywood movies such as The Lion King. And they are one of the best loved prey of the African savannah.
